

TÉCNICA DE MICROPUNCIÓN: CÁNULA PELABLE

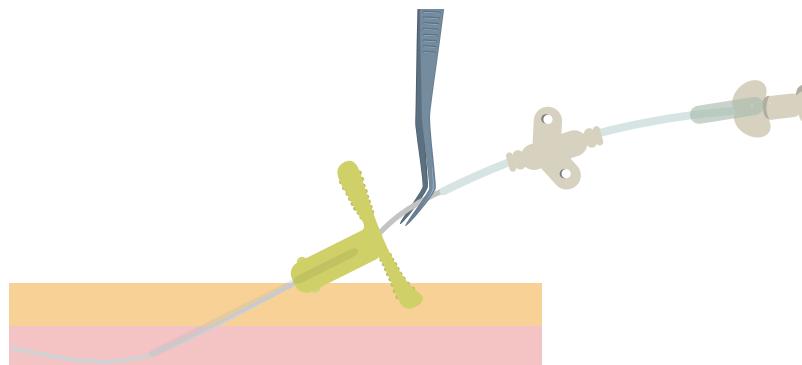

1 Puncionar la aguja

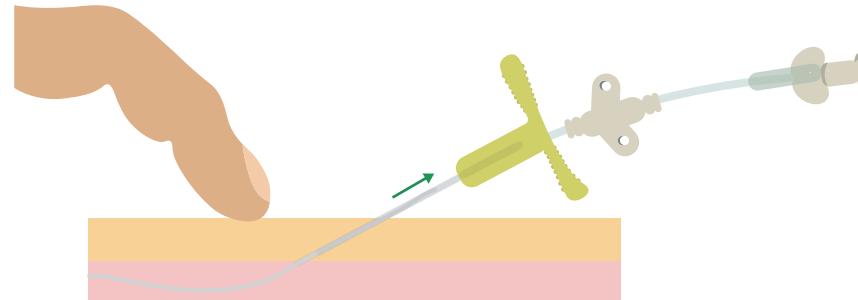

2 Avanzar la aguja hasta observar reflujo de sangre

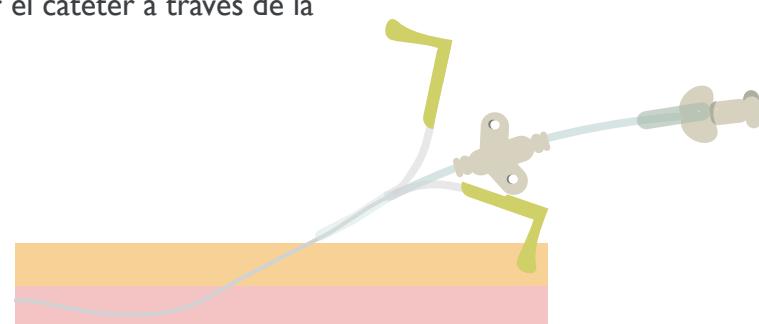

3 Avanzar la cánula y retirar el dispositivo de punción

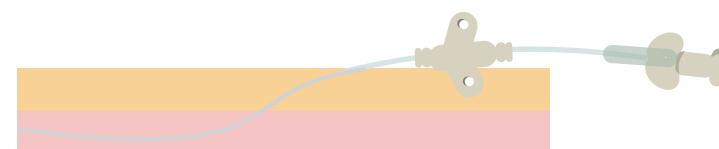

4 Insertar el catéter a través de la cánula

5 Asegurar el catéter y retirar la cánula

6 Pelar lentamente la cánula tirando de las aletas

7 Avanzar el catéter hasta la posición deseada
